

REMARKS

In accordance with the above amendments, claims 29, 35 and 43 have been amended and claims 29-33 and 35-44 remain under consideration in the present application.

The amendments to claims 29, 35 and 43 have been made simply to clarify the language in those claims and have not been made to limit the scope. It is believed that the amendments render those claims in condition for allowance and overcome any rejections under 35 USC § 112.

It is further noted that all of the pending claims stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-20 of U.S. Patent No. 6,012,688 and claims 1-15 of U.S. Patent No. 5,839,705 in view of Patent 6,012,688. Accordingly, applicant submits herewith a Terminal Disclaimer disclaiming the term of any patent which issues containing the present claims which extends beyond the expiration of either of the above-mentioned U.S. patents.

In view of the above amendments, taken together with the remarks herein and the accompanying Terminal Disclaimer, applicant believes the present claims to be in condition for

allowance and reconsideration and allowance of the claims are respectfully requested.

Respectfully submitted,
